Hi, team. We should find a time, hopefully this week, to chat. Agenda:

- 1) Draft letter: Here is a draft letter as per Paul's request to advise as to where EPA stands on the SWRI. Yellow highlights are language that need expansion or is tricky so please focus on those. And, is the general concept ok.
- 2) We probably should coordinate with the SDWA/UIC folks on this once we are all on the same page on the SSO side. It might be useful if Deane and I talk to the SDWA/UIC program anyhow just to start to learn the requirements and program there.
- 3) 308 request: Let's discuss whether/when to send out a 308 request and how to get that rolling.
- 4) SSO priority work – Mark, do you need a consultant to assist with identifying that?
- 5) Coordination with VADEQ: where are they on this issue.

I am pretty open this week, except tomorrow am, Wed. noon-2, and Thursday 3 to 4. So let me know what times work for you all. Thanks. Nancy
